2. Power transformer control box
3. Long cord
4. No-twist Floating device with rotary coupling
5. Sample of fine filter
6. Side brushes (4 units) + screws

Side brushes and screws are in the filter basket

QUICK FACTS

- Our robots are designed to facilitate the maintenance of your pool. However, they are not intended to clean a pool full of algae and leaves (ex: end of winter period). In this case you must: use the leaf skimmer, clean the filter and put back on the filter and the pump.
- A tile coating leads to faster wear of the brushes and belts. Please check these regularly.

- To remove the cleaner from your pool, lift the cable slowly and gently until you can grab it by the handle. Use the handle to fully pull out the cleaner
- In order to access the filter basket, place hands as shown in picture. Push with thumbs to unlock lid.

04 Installation of side brushes

1.

Locate the direction of the side brushes.

2.

Insert the side brushes.

3.

Insert the 2 screws.

4.

Secure the side brushes with the screws, using a screwdriver. Do not force !
